Stories

Logiaweb

 logiaweb.net

An online community to learn how to go from 0 to a skilled web designer who sells websites for thousands of \$.

The image shows a large smartphone displaying the Logiaweb community feed. The feed includes a pinned post by Adrien Ninet titled "START HERE" with a video thumbnail, and a post by Bisma Aftab titled "My Introduction". The top navigation bar of the phone shows the Logiaweb logo, a search bar, and notification counts for 1 message and 99+ notifications. Below the phone, a smaller smartphone displays the "Toolkit" section of the Logiaweb app, which is described as a "Web Designer's Toolkit" containing resources for learning web design and creating websites. The toolkit section includes a progress bar at 0%, a "START HERE" button, and a "LEAVE A REVIEW" button. It also shows member statistics: 1k Members and 6 Online members.

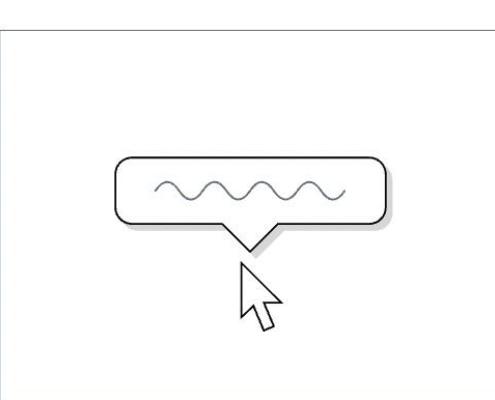

Component Gallery

 component.gallery

A helpful site showcasing examples of UI components to inspire your design projects.

Designed to be a reference for anyone building component-based user interfaces, *The Component Gallery* is an up-to-date repository of interface components based on examples from the world of design systems.

Popover

42 examples

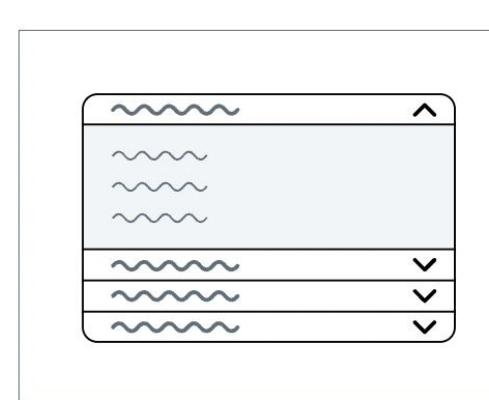

An element that pops up from another element over other content; it differs from a tooltip in that it is usually triggered via click instead of hover and can contain interactive elements.

Rating

14 examples

Ratings let users see and/or set a star rating for a product or other item.

Accordion

99 examples

Other names: Arrow toggle, Collapse, Collapsible sections, Collapsible, Details, Disclosure, Expandable, Expander, ShowyHideyThing

An accordion is a vertical stack of interactive headings used to toggle the display of further information; each item can be 'collapsed' with just a short label visible or 'expanded' to show the full content.

Quote

15 examples

Other names: Pull quote, Block quote

Quotes are used to display a quotation: either from a person or another outside source or to highlight a passage of the current document (a pull quote).

Laws of UX

 lawsofux.com

A simple site explaining key principles of user experience design to enhance your projects.

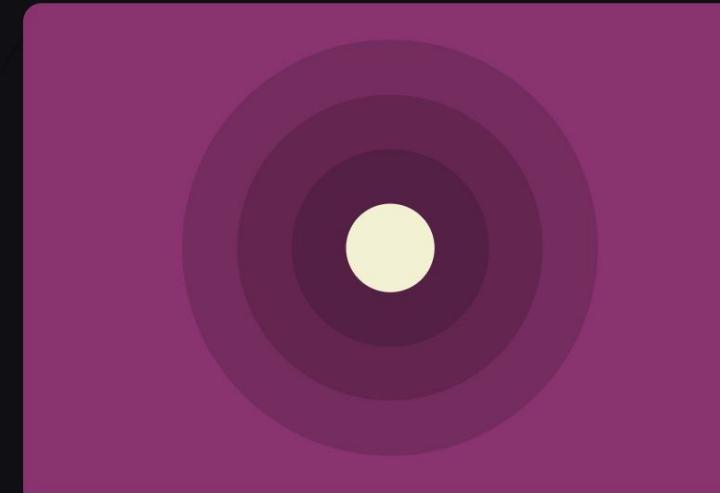

Laws of UX is a collection of best practices that designers can consider when building user interfaces.

The 2nd edition of *Laws of UX: Using Psychology to Design Better Products & Services* is now available! [Learn More →](#)

Checklist Design

checklist.design

A handy site offering design checklists to ensure your projects cover all essential elements.

The screenshot shows the homepage of Checklist Design. At the top, there's a navigation bar with links: Checklist Design (selected), Pages, Elements, Flows, Topics, Brand, Check-Ins, and a coffee cup icon. The main content area features a large title "Checklist Design" and a subtitle "A collection of the best design practices." Below this, there are several cards representing different design elements:

- Logo**:
 - ✓ Logo
 - ✓ Title
 - ✓ Account identifier
 - ✓ Password
 - ✓ Reset password link
 - ✓ Link to sign up
- Modal**:
 - ✓ Show link in account
 - ✓ Confirm intent
 - ✓ Request a reason
 - ✓ Confirm cancellation
- Blog post**:
 - ✓ Title
 - ✓ Subheading
 - ✓ Thumbnail
 - ✓ Author
 - ✓ Content
 - ✓ Sharing tools
- Reset password**:
 - ✓ Show link to reset
 - ✓ Ask for account details
 - ✓ Send link
 - ✓ Enter new password
 - ✓ Confirm password
- Elements**:
 - ✓ Colour variations
 - ✓ Usage
 - ✓ Responsiveness
 - ✓ Guidelines
- Flows**:
 - ✓ Show link in account
 - ✓ Confirm intent
 - ✓ Request a reason
 - ✓ Confirm cancellation
- Topics**:
 - ✓ Title
 - ✓ Actionable item
 - ✓ Close action
 - ✓ Responsiveness
 - ✓ Background change
- Brand**:
 - ✓ Show link in account
 - ✓ Confirm intent
 - ✓ Request a reason
 - ✓ Confirm cancellation
- Check-Ins**:
 - ✓ Title
 - ✓ Actionable item
 - ✓ Close action
 - ✓ Responsiveness
 - ✓ Background change
